Modular Design – Limitless possibilities. Strong ties with major AV distributors and installers as well as industry leaders enable us to develop head-end system specific digital signage solutions to the market needs of your business. We strive to always create simple and intuitive wall mounting solutions for digital signage display setups as well as in-room installations. Our aim is to consistently find ways to improve on our digital signage product offering. Maybe it's time for your business to discover a new level of refinement with our Pro Series signage solutions.

DIGITAL SIGNAGE PRO SERIES

Pro Series is a Digital Signage product series, that can be configured to Ceiling Mounts, Floor to Ceiling Mounts, Menu Boards or Wallmounts. With its modular construction installers have vast possibilities to change, update and reconfigure its design if ideas change. Over time the Pro Series installation can be combined into a wide range of new configurations.

Wide range of brackets

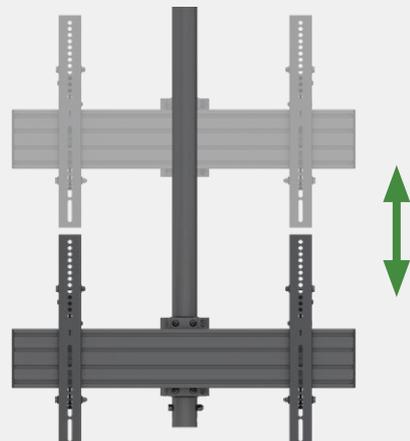

Precision Leveling

Each mounting bracket allows for micro height adjustments to be made to ensure your screens are levelled and perfectly aligned.

Extendable Height

The extendable poles allows you to position the center of the screen mounting plate no any height limitation. For tighter spaces, just with single pole to achieve a distance of 80cm.

Easy tilt

Tilt the mounting brackets 5°, 10° or 15° forward to improve line-of-sight while maintaining alignment between your screens. To compensate for potential lean, the brackets can also be angled up to 6° backward.

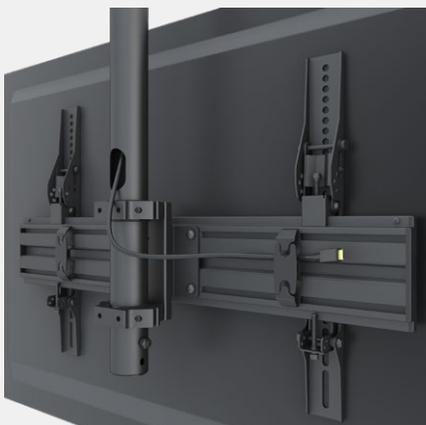

Modular design

Available in a wide range of models, Pro Series ceiling mounts support single to 18 screens weighing up to 30kg each. Their modular design allows for additional extrusions to be added to accommodate screens with wider VESA patterns, or to connect multiple units together.

Easy installation

To reduce strain, the Pro Series uses lightweight ceiling plates that are installed independent of the rest of the mounting system. Simply slide each extension pole into place and secure it to complete the installation. The ceiling plates also provide up to 90° of swing to account for sloped ceilings and support beams, or to secure the mount to a wall.

Cable management

The extension pole's hollow core provides an unobstructed path to route your cables, while an opening in the mounting plate allows them to continue through the ceiling for a truly professional setup.

Multibrackets Ceiling Mounted Solutions

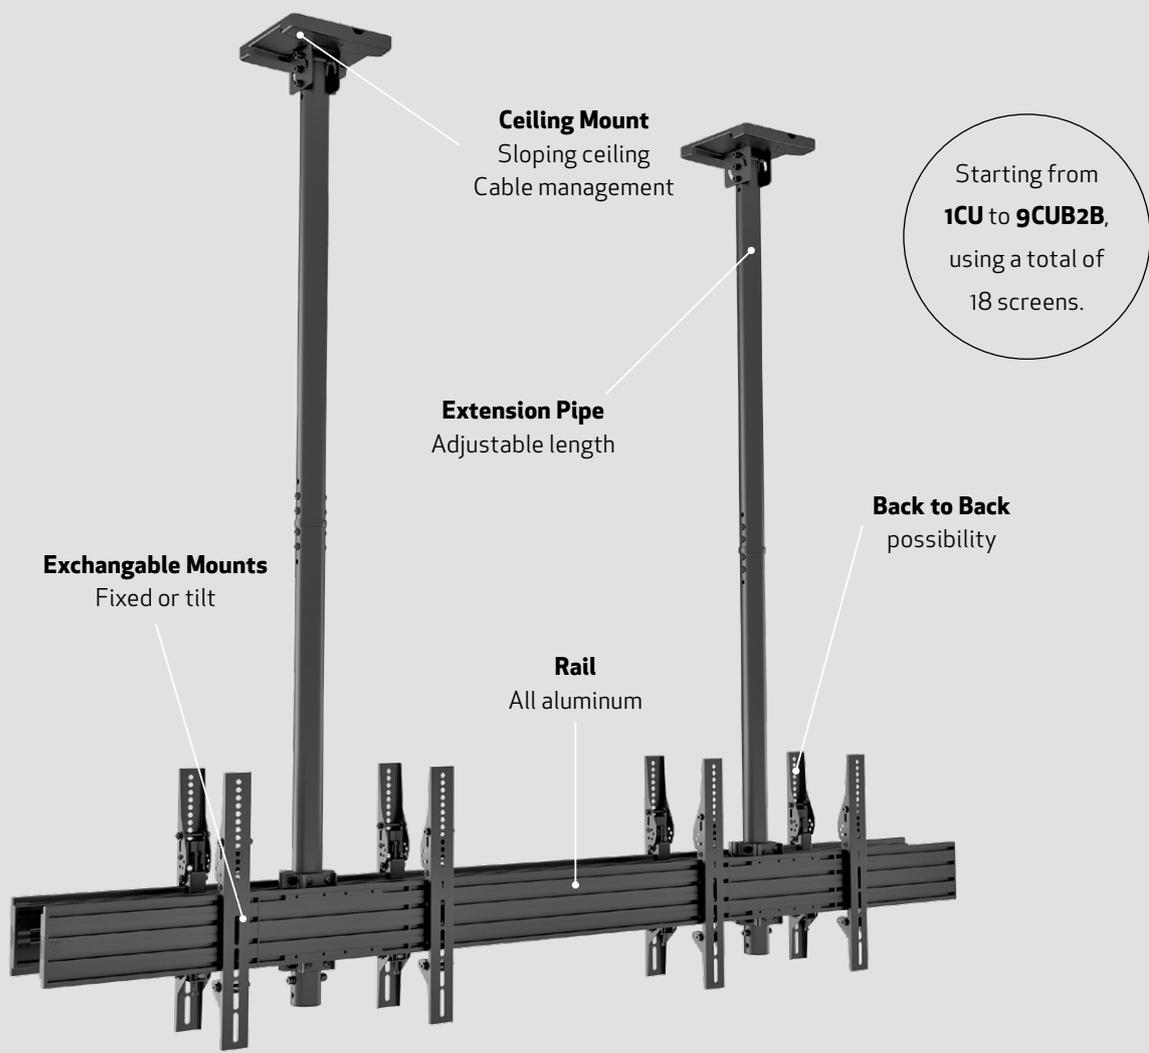

Great for installers and digital signage installations. Our ceiling mounted solutions make it possible to construct single, dual or video walls in prominent locations where walls aren't available. Comes in a variety of arrangements.

PRO SERIES

Ceiling Mounts

Our Ceilingmounts was designed to deliver a simple solution for any digital signage installations involving multiple commercial displays 32"-100". Perfect for many commercial installations the space saving design ensures the very best installer experience.

Multibrackets Wall Mounted Solutions

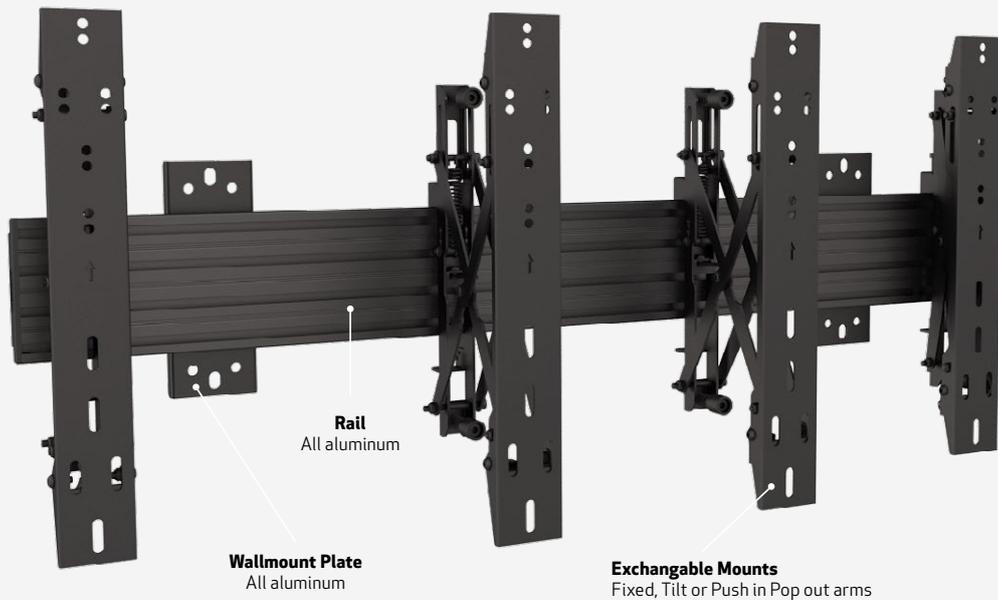

Our Pro Series Wallmounts can be used as menu boards or signage wallmounts. They offer a perfect display positioning and flexible adjustments. The single horizontal extrusion with optional push in pop out and depth adjustment aligns the displays very quick even on irregular mounting surfaces and allows easy access behind the displays for servicing.

PRO SERIES

Pro Wallmount Videowalls

For screen in a row the Pro Series now can offer you a simple way to get perfect display positioning and a choice of bracket and adjustment solutions that works after a set standard. Ensuring the very best installer experience a single aluminum extrusion rail is used with either fixed, tilt or push in pop out brackets that aligns the screens quick and efficiently.

A wide variety of arms:

- Push in pop-out:** 600/400
- Tilt:** 200/400 /600/900
- Fixed:** 200/400 /600/900
- Micro adjustable:** 200/400

From Wall & Wall to Wall Series

Keep crowds informed with high visibility

In the need of solutions to mount displays in a perpendicular position to a wall ? The M Pro Series From Wall and Wall to Wall models are our innovative interior designed Pro Series solutions that offers high visibility in open areas such as hallways, concourses, aisles and office spaces. The bracket mounts vertically so that the display is presented perpendicular to walls or between two walls. The clean and simple Scandinavian design has a durable construction and is very easy to install, a complete set of hardware is included. The M Pro Series From Wall and Wall to Wall series is a single or double sided solution. This digital signage installation makes it easy to keep moving crowds informed and this type of fixture is an ideal way to display high visibility wayfinding or directional information in high traffic areas.

SAMSUNG

These days many installers get the request to promote content with exceptional clarity in any storefront window. Multibrackets series of customized Floor or Ceiling Mounts for Samsung OMND display series is the ideal digital signage mounting solution for store windows. The Samsung OMN-D Series features a double-sided screen, with each side adjusted for the environments in which it is utilized. Samsung's OMN-D Series can be easily mounted on a stand or hung from a ceiling, giving retailers more options for positioning. The smart design creates a clean look and offers flexibility in how valuable floor space is designed and utilized.

The MFloormount Pro OM55N-D is the floormount designed for Samsung two sided screen OM55N-D. This dedicated mount allows businesses to create a platform for eye-catching content deliveries on a minimalistic mounting solution. By many installers considered the ideal display and mount solution for store window applications. A minimum of visible cables and screws from the outside. With a multitude of installer friendly features including concealed cable management for a professional appearance. This is an incredibly versatile solution that can be adapted to suit a wide range of both retail and commercial applications.

"Everything starts with you.

For us to create great products it always begins with putting you the user at the heart of everything we do."

Mission

We are on a mission to create products that are simple to install and use, that excites and solves our clients daily needs - everyday, all year around. Based in Stockholm, Sweden we design, develop and market AV Equipment. But we do it our way. Armed with a genuine passion for new technology and user centric innovation, we take a product and give it a little bit of Multibrackets magic!

About us

Founded in year 2000 we are a family owned business and represented in over 30 countries. Today we are considered one of the leaders in the rapidly changing environment of digital signage technology – together with our distributors we are providing hardware and services to enable the full value from idea to a ready product. With one of most comprehensive product lines in EU we supply Audio Visual Equipment for every need. Multibrackets reputation for innovative products is well known.

Become a partner

Stay ahead of your competition – Let us help you become a partner. Simply send us an email on support@multibrackets.com or go to our webpage <https://products.multibrackets.com/en/contact> for a contact with us at Multibrackets and we will help you with a distributor's contact. We look forward to your email.

Sustainability

At Multibrackets we see sustainability like a journey. Being in the AV business means we have a responsibility to take care of the environment and everybody who plays a part in making our products. We are working hard to design sustainable products, minimize our impact on the environment, improve our sourcing and create a great workplace for our employees. Find out more about what we are doing and what we've already achieved on our web.
