

VWFX95-L

FIXED VIDEO WALL MOUNT

FOR 70"-95" SCREENS, LANDSCAPE

VWFX95-L is designed for easy and fast installation of video walls with large 70"-95" screens. Micro-adjustment allows smooth alignment of screens without the use of tools. Dedicated spacers eliminate the need to perform calculations and measurements at the installation site. Unlike compatible VWPOP95-L and VWFS95-L products, it does not have any retractable mechanism and is often used to install screens on external, more accessible, sides of video walls where the retractable function is not needed. The open design of the VWFX95-L together with full access to the wiring and cable ties provide easy access for installation and safe servicing. VWFX95-L is equipped with a lock against uncontrolled structure opening, ensuring comfort of use and installation safety in public places.
