Quick lock wire terminal	1 pcs.

①

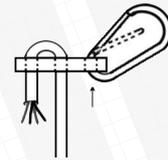

Put on the plastic cap on the wire.

②

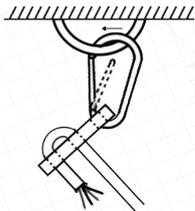

Mount cable clip on the wire.

③

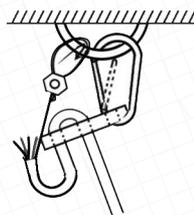

Place the spring hook in the hole of cable clip.

④

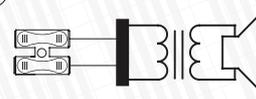

Mount the eye bolt in the ceilings and fix spring hook on it.

⑤

Make the loop in the end of the wire rope and fix the clamp.

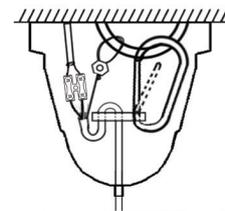

⑥

Connect speaker to signal line using quick lock wire terminal.
Select desired power from table.

COLOR	SL 20M
Blue	COM
Green	5W
Yellow	10W
Red	20W

⑦

Lift the dome to hide the mounting hardware. Gently tighten up the screw in a dome to prevent slip.

Please pay attention: the original eye bolt is suitable for mounting on the wood only. If loudspeakers are mounted on the other base, it is required to replace the eye bolt to corresponding reliable mounting solution. Mount loudspeaker on the reliable base only.
